Camunda-BPM

- ► Camunda
  - ► Company from Berlin
  - ► http://camunda.com
- ► BPM(N)
  - ► Business Process Model (and Notation)
 - ► http://www.bpmn.org
  - ► from OMG

BPMN 2.0

Figure: bpmn 2.0

Camunda-Engine

- Process-Engine
- Execute BPMN 2.0 models
- Open Source
- Supports Java EE
- Runs on Glasfish, Jboss, Tomcat, . . .
- Fork of Activiti-Engine

Demonstration

- find the code on
  https://github.com/detached/camunda-demo

Experience

Benefits of using BPMN 2.0 + Process-Engine

- Management <-> Developer
- Documentation
- Reusability
- Monitoring
- Operating

Drawbacks

- ► Dependency to product
- ► Additional component
- ► Engine documentation not that good
- ► Performance

Thank you
